

Core Cutting Improvement

**Circular saws and Bandsaws make lousy core cutters.
A ROCKPORT Single Core Cutter does the job...**

- Safer
- Faster
- Dust Free
- Better

At Rockport Machine Company we build sensible, durable core cutting machinery that saves you time and money. With a Model LSCC operators can process up to 24" I.D. Cores and re-cut into lengths as small as 1/4".

Provide a better looking product for your customers while increasing productivity and keeping employees safe with a Rockport LSCC.

Give Rockport a call for additional information and a detailed proposal today.
